

Cost of Living

Support in the Bradford District

In response to the cost of living challenges we have created a dedicated website that will be live from Monday 10th October. This website is called costoflivingbradford.co.uk and includes the following information:

- **A booklet** that can be viewed online or downloaded. This outlines a range of support available for families as we approach the colder months. Hard copies of the booklets are being distributed across the district;
- **A warm spaces directory.** All organisations offering a warm space should register to be included on the site This will provide valuable information for residents across the district on how to find their nearest warm space and when it is available;
- **Warm Spaces small grant application.** Grants of £500 or £1,000 are available if your organisations want to expand their current warm space offer or create a new one. The closing date for applications is the 30th October. Schools are welcome to apply if they can offer an after school warm space. The closing date for applications is the 30th October.

Warm Spaces Directory

To ensure people can find a warm space a directory has been created. This will list all participating organisations and will continue to grow as more register. Organisations can register using this link:

Warm Spaces Communications Toolkit

We have developed a brand logo, plus posters, flyers and other items to support in advertising warm spaces. This link provides you with access to the pack:
