

Speech, language and communication support

ADVICE LINE

For parents, carers and families.

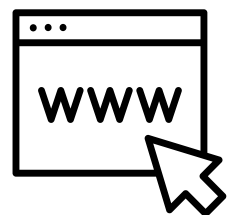

If you need advice on how to support your child's speech, language or communication skills, book a call to speak with one of our Specialist Speech and Language Therapists. We can support you with:

- Recommending strategies and ideas to try with your child to support their SLCN (speech, language and communication needs).
- Discussing if a referral to the Speech and Language Therapy service for specialist level support may be needed in the future.

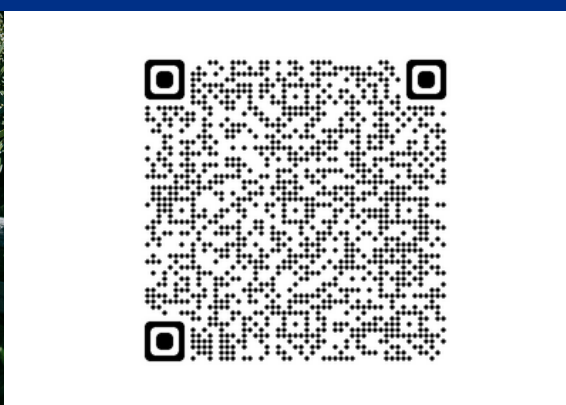

Visit our **booking page** by scanning the QR code below, to book your call. Calls are bookable in 25-minute slots. The call may end sooner, depending on the nature of your call. Please note - If you want to discuss any children already known to our service, please call our Admin Team on 01274 221166.

Visit our website for useful information on supporting your child's speech, language and communication skills:
